

Etsy listings + launch posts: paste-ready

Three listings from day one = 3× the search surface. All copy below is written for Etsy SEO (front-load keywords in titles, 13 tags each, keyword-rich first lines).

LISTING 1: Universal (flagship)

Title (140 char max; Etsy weights the first words): Service Business CRM App for Google | Lead Job Client Tracker, Estimates + Invoices, Review Automation, Runs on Your Phone, No Monthly Fee

Price: \$69 · **Type:** Digital download · **Files:** 1 PDF (delivery link)

Tags (13): crm app , google sheets crm , small business crm , client tracker , lead tracker , job scheduler , service business , invoice app , contractor crm , estimate invoice , customer tracker , no subscription , spreadsheet template

Description:

Run your whole service business from a real APP on your phone that lives in YOUR OWN Google account

Service Pro CRM manages your leads, quotes, invoices, jobs, and clients, and automatically emails f

★ WHAT'S INSIDE

- A real mobile web app (add it to your phone's home screen) backed by your own Google Sheet
- Quote → Approve → Invoice → Paid flow: build an estimate in seconds, one tap turns an approved es
- Live dashboard: new leads, open pipeline, jobs this week, revenue, win rate, and lifetime revenue
- Jobs auto-sync to your Google Calendar (with the client's address as the location)
- One-tap Maps directions to any client's address
- Color-coded client statuses, with follow-up dates that turn red when overdue
- Branded PDF estimates AND invoices: itemized, with sales tax and a "Pay now" button
- Recurring jobs: weekly/monthly/quarterly/annual visits roll forward automatically
- Automatic Google-review requests: more 5-star reviews = more jobs
- Follow-up + appointment reminder emails on autopilot (tap-to-text link included)
- Mobile lead-capture Google Form → feeds your client list from anywhere
- Job scheduler, client book (auto totals), estimate + invoice logs

★ WHY IT BEATS A \$30/MONTH APP

- One-time price. Own it forever.
- Runs in YOUR Google account: your data never leaves your Drive.
- Private by design: your customer data is NEVER sent to any AI or third party.
- Works on your phone and laptop.
- Nothing to install: copy it and go.

★ HOW IT WORKS

After purchase you get a PDF with a link. Click "Make a copy" and the whole CRM is yours: private a

★ PLEASE READ BEFORE BUYING (so it's a great fit)

It's a real app you run on your phone and computer, but because it lives inside YOUR OWN Google account, setup has TWO one-time steps done on a computer (about 10 minutes total, guide included): (1) copy the sheet and approve a normal "Google hasn't verified this app" screen (that's expected since it's your own copy); and (2) turn on the app (a few clicks to "deploy" it; the guide walks you through it). After that, you just open your app link.

Customer messages are sent by EMAIL (a tap-to-text link is included for you on mobile).

There's no built-in texting from a business number. Customers pay through your own payment link (Stripe/PayPal/Venmo) shown as a "Pay now" button; no built-in card processing.

Not comfortable with the setup? Grab the Done-For-You option: we'll brand it, load your services, configure everything, and walk you through the one-time deploy in a quick guided session, so you finish with a working app link.

Perfect for: cleaners, landscapers, lawn care, detailers, contractors, handymen, HVAC, pool & pest

Not affiliated with Google. Requires a free Google account. Digital product: no refunds once delivered

LISTING 2: Cleaning niche

Title: Cleaning Business CRM Google Sheets | Client & Job Scheduler for House Cleaners, Maid Service Lead Tracker + Invoices, No Monthly Fee

Tags (13): cleaning business, house cleaning crm, maid service, cleaning schedule, cleaning planner, client tracker, google sheets crm, job scheduler, invoice template, small business, cleaning company, booking tracker, no subscription

Description: *(same body as Listing 1, swap the opening line:)*

Run your cleaning business from ONE Google Sheet: book jobs, track clients, send invoices, and get

LISTING 3: Lawn care / landscaping niche

Title: Lawn Care CRM Google Sheets Template | Landscaping Client & Job Tracker, Route + Invoice + Review Automation, No Monthly Fee

Tags (13): lawn care business, landscaping crm, lawn care schedule, landscaping planner, client tracker, job scheduler, google sheets crm, invoice template, lawn care software, small business, green industry, booking tracker, no subscription

Description: *(same body, swapped opener:)*

Run your lawn care or landscaping business from ONE Google Sheet: schedule jobs, track clients, send

ADD-ON LISTING: Done-for-you setup

Title: Done-For-You CRM Setup | I Brand, Configure & Guide Your Deploy **Price:** \$149 **Description:**

Don't want to set it up yourself? I'll brand your CRM with your business name and colors, load your

How DFY actually works (for you, the seller): you can't deploy inside a buyer's Google account (no password, and it would run as *you*). So DFY = you pre-build a branded copy, the buyer copies it, adds you as a temporary Editor if they want you to configure Settings, and you guide the 6-tap deploy live or via a Loom. Then they remove your access. Never ask for their password; never deploy as yourself in their sheet.

Gumroad listings (same product, second storefront)

Gumroad has no listing fee and no ID/KYC hoops, good as a second storefront and the link you drop into community posts. The Etsy copy works as-is; Gumroad has no tags, so lead with the title and a punchy summary.

Product name: Service Pro CRM: CRM App for Service Businesses (Google • No Monthly Fee)

Summary (top of page):

A real CRM app for cleaners, landscapers, contractors & service pros: leads, quotes, invoices, jobs

Description: reuse the Etsy description body above (the ★ WHAT'S INSIDE + WHY IT BEATS A \$30/MONTH APP + PLEASE READ sections).

Price: \$69 (or \$49 launch). Make separate Gumroad products for the **\$149 Done-For-You** tier and the **Cleaning / Lawn Care** editions if you want them.

Content / delivery: upload the **Start-Here PDF** (the delivery file containing your copy link) as the product file: buyers download it after paying, then click the copy link inside. (Gumroad also has "Redirect after purchase," but the PDF is safer: it carries the setup + deploy steps.)

Cover images: the same shots from `assets/`, lead with `app-home.png`.

Fees: ~10% + card processing, no listing fee. **Traffic:** Gumroad brings none on its own; drop your Gumroad link in the community posts below.

Launch posts (you paste, I wrote)

Use these in relevant Facebook groups / subreddits (r/smallbusiness, r/cleaningbusiness, r/lawncare, r/Entrepreneur). Post as a helpful share, not a hard sell. Space them out.

Facebook groups:

Built a CRM app for service businesses that runs in your OWN Google account: leads, quotes, invoice

Reddit (value-first, link in comment):

I kept losing track of follow-ups and forgetting to ask happy customers for reviews, so I built a G

✅ **Launch checklist (both platforms)**

See `PACKAGE.md` for the full playbook. Short version:

1. **Build the master** (once): `README.md` + `DEPLOY.md`, verify with `SMOKE-TEST.md`. Share it "Anyone with link ▶ Viewer" → that's your **copy link**.
2. **Make the delivery PDF**: put the copy link into `delivery-template.html`, print to PDF.
3. **Etsy**: open shop → Etsy Payments + ID → new **digital** listing → upload the delivery PDF → paste the title/tags/description above → add images from `assets/` (lead with `app-home.png`) → publish.
4. **Gumroad**: new product → price → upload the same delivery PDF → cover images → publish.
5. Drop your links in the community posts above. Space them out; reply, don't hard-sell.
