

⚡ YOUR DOWNLOAD IS READY

# Welcome to Service Pro CRM

Thank you for your purchase! You're about 5 minutes away from running your whole service business from one Google Sheet. Let's get you set up.

👉 Click here to get your CRM

Opens Google Sheets — then choose "Make a copy"

Button not working? Paste this into your browser:  
<https://docs.google.com/spreadsheets/d/EXAMPLE-your-copy-link/copy>

## — Set up in 5 minutes

- 1 Open the link above and click **File ► Make a copy**. The copy is now **yours** — private and editable, in your own Google Drive.
- 2 Open the ⚙️ **Settings** tab and fill in your business name, email, phone, Google review link, and payment note.
- 3 Reload the sheet. A ⚡ **CRM** menu appears at the top. Click ⚡ **CRM ► Set up / rebuild CRM**, then approve the one-time Google permission (see the note below — the warning screen is normal).
- 4 Click ⚡ **CRM ► Open Quick Actions panel** — your daily command center. Add your first lead right there.
- 5 Turn on autopilot: ⚡ **CRM ► Automations ► Turn ON daily automations** for automatic follow-ups, appointment reminders, and review requests.

## — What's included

- |                                  |                                |
|----------------------------------|--------------------------------|
| ✓ Live dashboard + revenue chart | ✓ Color-coded lead pipeline    |
| ✓ Quick Actions side panel       | ✓ One-click PDF invoices       |
| ✓ Automatic follow-up emails     | ✓ Google-review request emails |
| ✓ Appointment reminders          | ✓ Client book with auto totals |

**"Google hasn't verified this app" — that's normal.** Because this runs inside *your own* Google account, Google shows a warning the first time. Click **Advanced** → **Go to Service Pro CRM (unsafe)** → **Allow**. It's your own copy; your data never leaves your Drive. (On a work/school account and don't see "Advanced"? Use a personal @gmail.com account instead.)

**Tip:** Works on your phone too — install the Google Sheets app and sign in. Your CRM is right there.

**Need a hand?** Reply to your Etsy order message and we'll help you get running — usually same day. Full user manual and quick tips are included on the  **Start Here** tab inside your CRM.
